Code 10

## ABOUT ME

As an innovative final-year BSc Computing undergraduate, I am passionate about coding and deeply committed to advancing my skills and experience in Software Engineering and development. My diverse portfolio showcases the development of multiple websites, alongside an exciting ongoing project for a shopping center. I have also successfully created desktop applications using Qt, and I am actively broadening my expertise by learning app development with React Native. My goal is to seamlessly blend creativity with cutting-edge technology to deliver exceptional results.
