I'm a BSc Computer Science and Information systems graduate, committed to advancing my skills and experience in either Data Engineering | Software Engineering. My diverse portfolio showcases a front-end website(Html,Css,Js) | full stack web app(React+Django) | full stack soccer mobile app(React native+Django) | Data Handling projects(Python,Pandas,Numpy++). I have also contributed in the development of a desktop application(C++ Qt), I am actively broadening my expertise through a Computer Science Hons at UP and Data Engineering bootcamps. My goal is to seamlessly blend creativity with cutting-edge technology to deliver exceptional results.

Willing to relocate: Anywhere
